

# no-one can resist a beautiful smile...

...and why should they when a stunning smile can be achieved in a matter of weeks?

**aesthetics** is a unique dental and facial centre-of-excellence offering the latest in cosmetic dentistry at its state-of-the-art, purpose-built premises.

From teeth whitening to complete smile makeovers, experienced dentist Dr Harminder (Harry) Singh and his team provide expert advice and treatment with tailor-made packages to suit each and every individual.

If unsightly fillings are stopping you from smiling, why not consider replacing them with natural coloured fillings moulded exactly to the shape of the tooth? Or light up your smile with the latest tooth whitening techniques.

**aesthetics'** extensive list of treatments also includes veneers, implants and invisalign braces which, as their name suggests, are practically invisible, making unsightly braces a thing of the past.

The practice also prides itself on its first class general dentistry and is unique in being able to offer general and cosmetic dentistry alongside facial rejuvenation. This involves tailor-made, non-surgical treatments with excellent long-term results.

And whilst no expense has been spared in making sure clients enjoy a 'dental spa experience', **aesthetics** also boasts the latest in health and safety. This includes a centralised sterilisation area away from the surgeries to prevent cross-contamination and digital X-rays which produce a third less radiation compared to conventional X-rays.

A highly qualified dentist and facial rejuvenation practitioner, Dr Singh is concerned that people make informed, sensible decisions before embarking on any treatments. 'Many dentists, doctors and beauty salons have jumped on the beauty bandwagon and offer quick fix treatments without due consideration of any underlying issues. We carry out extensive, detailed 60-minute new patient consultations during which we can address any queries and concerns in a relaxed, professional environment.'

To arrange a consultation call 01707 261367 or to find out more, visit [www.aesthetics-dentistry.com](http://www.aesthetics-dentistry.com)

**aesthetics** is based on the Hatfield Business Park, Hertfordshire and is easily accessible from the A1(M). Interest free credit is available.

Harry Singh, proprietor of **aesthetics**, is passionate about spreading the word on the advances in both cosmetic and general dentistry. He brings a wealth of experience with him to **aesthetics** having qualified as a dentist in Leeds in 1996.

Dr Singh passed the Membership of the Faculty of General Dental Practitioners (MFGDP) in 1998, and undertook a one-year Certificate in Restorative Dentistry in 2000.

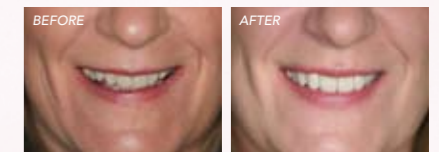

He is a member of the American Academy of Cosmetic Dentistry, the British Academy of Cosmetic Dentistry and the Association of Facial Aesthetics. He has also trained with the American Institute of Medical Aesthetics which is affiliated with Plastic Surgery Associates (Cromwell Hospital, London). He is married with one child and another one on the way!

## testimonial

Dr Harry Singh says, 'Ginnie came to see me for advice on her smile. She has an outgoing personality but was very conscious about her teeth, to the point that it stopped her from smiling and affected her self-confidence. She was nervous about changing her smile and wanted a natural look and not a Hollywood smile.'

'At the initial consultation we discussed her concerns and all the options available to her and I showed Ginnie what the end result would look like.'

'The finished result has exceeded Ginnie's expectations and looks great. I have created a natural smile to give Ginnie the extra confidence she desires.'

Ginnie says:

'I was initially concerned that the veneers would protrude unnaturally, however the end result proved me wrong.'

'The service was impeccable, very professional and I was impressed with the total care I received from start to finish.'

'I had five veneers and one crown which were applied pain-free and with great care.'

'I am so pleased with the perfect smile that I now have. My teeth are beautifully straight and white, something I did not think would make so much difference. My confidence has been boosted and I love smiling so much more now!'

'I would definitely recommend Dr Singh to friends and family, and I have registered my husband and children, which clearly shows how happy I am with my new look.'

Ginnie Carter
